

## Seismic survey to strengthen geological understanding of Fifield District

Rimfire Pacific Mining (**RIM: ASX “Rimfire”**) is pleased to advise that a seismic survey has commenced at Fifield which is located approximately 70 km NW of Parkes in central NSW (*Figures 1 and 2*).

The aim of the survey is to strengthen Rimfire’s understanding of the area’s geological architecture, and the geological setting of numerous scandium, gold and copper mineral occurrences that exist within the area. Data obtained from the survey will be used in the planning of forthcoming drilling programs.

Specifically the survey will examine the geometry of the margins of the Murga Intrusive Complex (which hosts the Murga Scandium Deposit – 12Kt Sc Oxide <sup>1</sup>), and the significance of several north east – orientated structures that are thought to host localised gold mineralisation (such as the Sorpresa Gold Silver Deposit – 74.3Koz Au and 3.44Moz Ag <sup>2</sup>) at Fifield.

The (2D) survey is being conducted along a 9-kilometre-long south – east orientated traverse within the central portion for the Fifield and Avondale Projects (*Figure 3*) by specialist contractor Velseis Pty Ltd using their Mini-SOISE system.

Acquisition is predicted to take at least 3 field days with processing and interpretation completed by early July 2026.

Rimfire looks forward to providing another update when further information becomes available.

<sup>1</sup> Details of the Murga Mineral Resource estimate were previously released by Rimfire in ASX Announcements dated 13 April 2026.

<sup>2</sup> Details of the Sorpresa Gold Silver Deposit were previously released by Rimfire in ASX Announcement dated 6 November 2019.

*Rimfire confirms that it is not aware of any new information or data that materially affects the information included in the ASX announcements, and that all material assumptions and technical parameters underpinning the estimates in those ASX announcements continue to apply and have not materially changed.*

### **JORC Statement**

Rimfire confirms that this ASX Announcement does not contain any new previously unreleased exploration results. Previous results and JORC information for the Murga Scandium Deposit and the Sorpresa Gold Silver Deposit were previously released by Rimfire in ASX Announcements dated 13 April 2026 and 6 November 2019 respectively.

### **ENDS**

This announcement is authorised for release to the market by the Board of Directors of Rimfire Pacific Mining Limited.

David Hutton – Managing Director / CEO (phone +61 417 974 843)

### **Competent Persons Declaration**

The information in the report to which this statement is attached that relates to Exploration and Resource Results is based on information reviewed and/or compiled by David Hutton who is deemed to be a Competent Person and is a Fellow of The Australasian Institute of Mining and Metallurgy.

Mr Hutton has over 30 years' experience in the minerals industry and is the Managing Director and CEO of Rimfire Pacific Mining. Mr Hutton has sufficient experience that is relevant to the style of mineralisation and type of deposits under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Hutton consents to the inclusion of the matters based on the information in the form and context in which it appears.

The data in this report that relates to Mineral Resource estimates is based on information compiled and evaluated by Mr Simon Tear who is a Member of The Australasian Institute of Mining and Metallurgy (MAusIMM) and who has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (the "JORC Code"). Mr Tear is a Director of H&S Consultants Pty Ltd, and he consents to the inclusion in the report of the Mineral Resource in the form and context in which they appear.

### **Forward looking statements Disclaimer**

This document contains "forward looking statements" as defined or implied in common law and within the meaning of the Corporations Law. Such forward looking statements may include, without limitation, (1) estimates of future capital expenditure; (2) estimates of future cash costs; (3) statements regarding future exploration results and goals.

Where the Company or any of its officers or Directors or representatives expresses an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and the Company or its officers or Directors or representatives, believe to have a reasonable basis for implying such an expectation or belief.

However, forward looking statements are subject to risks, uncertainties, and other factors, which could cause actual results to differ materially from future results expressed, projected, or implied by such forward looking statements. Such risks include, but are not limited to, commodity price fluctuation, currency fluctuation, political and operational risks, governmental regulations and judicial outcomes, financial markets, and availability of key personnel. The Company does not undertake any obligation to publicly release revisions to any "forward looking statement".
